In The Russian Government has addressed un of another despatch to the principal Calinets. taken larging them to settle the question of the nonmity, complayment of explosive missiles in war by the sign thate of a protocol on the subject by their representatives at St. Petersburg. Some movement against Rome appears to be eroise once more threatened. The patrols in that city? of the and environs have been strengthened, while at tained the saure time news is brought of the arrest of Act, 25 Mazzinian's from the Romanga, For some aiting weeks past the Pope has been in a state of herates | great excitement. He adopts the most rigorous measures against all who are suspected of liberal views, and alienating, and even banishing, his best friends. He seems to be labouring under a sort of mania, which not only keeps up a panic in his household, but causes unea finess to his physicians. The North Eastern Correspondence gives some interesting news about the health of Count Bismarck and the influences now prevident at the Proseinn Court. The Count, it says, is now quite convalescent: the nervous pains which formerly caused him so much suffering have disappeared, and he is already able to walk and drive. His Majesty seems disposed to adopt the policy of General Moltke and his party, who hold that Prussia would best consult her interests, not by seeking alliances abroad, but by uniting herself as closely as possible with the other German States. Although a strong adn Law. vocate for peace, General Multke, the Corresheen | pondeace adds, like most Prussian statesmen. ontom | thinks that a war between Francia and Prussia on won is inevitable, and that France is only waiting for the completion of her armaments to find a prefext for picking a quarrel with the conhester squerors of Sadowa. This opinion is also shared at a by the King, but all agree that Prussia should killed do her utimet to avert such a result. COMMERCIAL INTELLIGENCE Hongkong, Monday Evening.
